

# INTEGRATIVE ONCOLOGY CLINIC

The Integrative Oncology Clinic is a research study pilot project that aims to provide personalized, patient-centered, safe and culturally sensitive recommendations on the use of complementary and integrative treatments for patients who are undergoing cancer treatment.

## Eligibility Criteria:

1. Receiving conventional cancer care treatment and at least one of the following two criteria are met:
  - i. High Symptom Burden
  - ii. On a large number (i.e.  $\geq 5$ ) natural health products

## AND/OR

2. Patient is at risk of declining or deferring conventional treatment(s) in favour of alternative approaches.

Patients receive 1:1 consultation with IO trained oncologist, Dr. Safiya Karim.

Submit referrals using **Ambulatory Referral to Psychosocial Oncology** in Connect Care.

- *For reason for referral, choose "Assess and Treat"*
- *Under comments, enter "Referring to Integrative Oncology Clinic".*
